

- RTS Flat Back rain barrel is made from UVB resin for protection from sunlight.
- Heavy duty rotational molded construction enables a longer lifespan
- Rain barrel dimensions: 24L x 19W x 36H inches
- US 50-gallon capacity
- Approximate weight is 19 lbs.
- Linkable to other barrels for increased capacity.
- Flat side sits flush to the wall decreasing the barrel's footprint and increasing safety.
- Shut off valve for hose hook-up, dual overflow, and spigot.
- Screen to keep out materials, insects, and animals. Authentic oak barrel appearance without concerns for insect infestation or barrel rot.

- This rain barrel comes in 60 or 80 Gallons.
- This barrel will work under any size downspout.
- A perforated entry screen cover allows quick rain entry but is still able to prevent insects from entering the barrel.
- A solid brass spigot attaches easily to your garden or soaker hose.
- These premium rain barrels have two overflow ports which can redirect excess water away from your home.

- This barrel has a screened automatic overflow and six foot diverter hose.
- You can connect two or more barrels together with our linking adapter.
- Secure closed design prevents accidental drowning.
- ¼" thick, UV protected, new material polyethylene plastic.
- 5-Year Guarantee
- Capacity: 54 Gallons, weight: 20 lbs. 36H x 23W
- Two dispersing points allow simultaneous hose & spigot access.
- Brass threaded spigot and other high-quality components will withstand harsh weather wear for years.
